Product information Snaredrums

Corps Custom Exclusive Series

Corps Custom Exclusive Series Snaredrums

Snaredrums build with the latest technology of snaredrum building .
A complete line of exclusive snaredrums fitted with a choice of snarestrainers and snares to create the sound you want. Exclusive styled lugs (12) and completed with top quality CC machined aluminium tension hoops.

Corps Custom Exclusive Snaredrums - Exclusivity for the most demanding traditional drumline.

Tensions Rods

Using chrome plated tensionrods, the drums can be tuned very easily.

Lugs

The special shaped and high pressure die casted Zamac twin lugs stand for pure quality an exclusive design. The lugs are fitted with bronze and chrome plated inserts. Inside the lugs you will find a special synthetic “locker” to hold the tension and avoid the rods to loosen their tension. The drums are fitted with 12 lugs to create an optimum of tuning.

Snares

Top | Using wire snares (20 strands) the available snare systems stand for the most crispy and accurate sound available.

Bottom | Depending on model of strainer:
XS - 20 strands wiresnare high quality standard
UCS - 10 pieces of very accurate stainless steel cable snares

Protection Brackets

To protect the different snarestrainers and tensionhoops when putting the drum on the floor, a set of 2 solid chrome plated brackets are mounted on the drum.

Drumheads

We only use the best components and there for these series we choosed Remo Ambassador Smooth White as a standard. Optional you can choose for White Max or Cybermax drumhead.

Top | Remo Ambassador Smooth White

Bottom | Depending on snarestrainer
XS: Remo Ambassador TD
UCS: Remo Ambassador SA

“The best drums need the best available drumheads”

Tensionrings

Made out of special aluminium alloy. Focused on strength and durability. Precisely CC machined, mirror finished and available in different finishes. Just the best quality available on the entire market.

Top Strainer

Easy to handle and fully adjustable, both height and snare tensioning. CC machined components like Delrin and special high quality anodized aluminium completes the strainer. This is the absolute toplevel available. Reliable and functional for the extreme demands in sound and function.

Bottom Strainer | Three different models to choose from

XS STRAINER | These External Strainer is made out of high quality components, and completely CC Machined. The mechanism works outside the shell. No internal material is used inside the shell. The shell can just do where it is made for! The XS snarestrainer is fully adjustable in both height and snare tension. Beside that, the height of the strainer can be fully compensate when you tension up the bottom tension ring. Ofcourse CC technology is used in manufacturing this excellent strainer.

LTO STRAINER | Choosing the best available materials to create this fully adjustable strainer. Both height and tension are adjustable for an optimum of result in regards to projection and accurate snare sound. Easy to handle, designed and constructed, focused on the demands of the marching snare drummers. Together with 8 individual adjustable cable snares the LTO Throw Off snare system fits to your quality choice!

UCS STRAINER | The biggest innovation in snaredrum technogy! Made out of special designed extrusion profiles precisely CC machine tuned. This ultimate strainer gives the snare drummer the comfort of shifting the strainer during his playing activities. Besides a technical high standard it gives an ultimate in musical performance! Tension and height of the snares are fully adjustable.

Corps Custom Exclusive Series | Exclusive in performance and sound!
