| Ultimate Free Floating Series |

## Ultimate Free Floating Vortex Drum

The UFI series are build as a free floating concept. The unique construction where the drumhead is tensioned between the aluminium collar and the tension ring.

Both components are precisely CC machined and stand for an extra ordinary strong construction. The only tension limit is the strength of your drumhead.

The drums are completed with an attachable special sized cut of shell for an optimum of protection and a sound as strong as the power of a Vortex. The drums can be used with our without shell.

*UFI Series Vortex drums | Strong and powerful as the Vortex stands for!*

### Tension Rods

The drums are fitted with stainless steel tension rods (M6X 1,5) for durability and strength to stand the high tension suitable for these drums, creating the sound / tension you need.

### Collar

Made out of special aluminium alloy. Focused on strength and durability. Precisely CC machined to create just the best construction for both bearing edge and extreme high tension. The collar just stand for quality and a life time durability.

To adapt the drum to a carrier we choose the collar to attached the adaptor for a strong connection between carrier an drum.

### Shell mounting system

The UFI Vortex High Tension Snaredrums can be played with or without shells. The shells can be easily attached to the collar.

### Drumheads

We only use the best component and there fore these series we choosed for Remo Falam Series High Tension Drumhead. Standard mounted on the instrument.

*"The best drums need the best available drumheads"*

### Tensionrings

Made out of special aluminium alloy. Focused on strength and durability. Precisely CC machined, mirror finished and available in different finishes. Just the best quality available on the entire market.

### Top Strainer

Fixed Top Strainer - FS | If you want to play only with snares just remember this: Less is better for both weight and functioning.

Due the precize machining of collar and snarestrainer we are able to fit a fixed snarestrainer. Only using high quality CC machined components. Easy to handle and adjust.

Switching Top Strainer - TS | For using the drum with our without snares we created the most sufisticated top strainer. Easy to handle and fully adjustable, both height and snare tensioning. With CC machined components like Delrin and special high quality anodized aluminum the strainer are the absolute top level available.

### Inserts

Pressed into the collar the 12 steel inserts guarantee a lifetime functioning. Made for extreme tension ad precize tuning.

### Snares

Using wire snares – (20 strands) the available snare systems stand for the most crispy and accurate sound available.

*Vortex Drums... 'strong as the wind'*

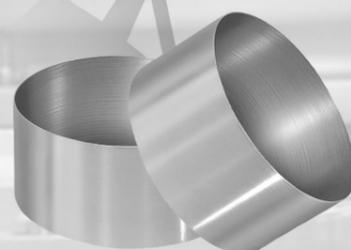

## Shells

**Color Options**  
Various shell en hardware  
colour finishes available.  
Please ask for colour charts

**PLYWOOD IMPACT:**  
*The heartbeat of your drum!*
