Vibraphones

CCV 4001

3.0 octave F3 - F6 Graduated Satin Silver Finished Aluminum Alloy

Made in Holland | Used Worldwide

Custom Classic Series

With the greatest care, all our design skills and handtuned resonators, we select the best materials to manufacture these series of percussion keyboard instruments. Featuring the finest in traditional craftsmanship, the very best and latest innovations in material and tuning technology, we present you these instruments. Rich and focused in tone, easy to transport and height adjustable through our patented VCL System. If the ultimate in sound and quality is what you search for, consider these Royal Series of mallet instruments.

Custom Classic Series 4000 Series

Again the “gigging” vibe player will love this carefully designed instrument. This vibraphone is modular and very easy to transport. The VCL height adjustment system provides accurate adjustment in seconds. The splendid graduated bar set is made of special aluminium alloy in a satin anodized silver finish. The vibraphone is supplied with a build in variable motor control unit.

Motormanagement

The Vibraphone is supplied with a build in, variable speed, motor and build in control unit.

Endpieces

To realize stable and precise constructions, we use high grade steel and European Ashwood components. Rails and endpiece are very carefully designed to make that perfect match.

Bars

Material:Satin Silver Finished Aluminum Alloy

Bar Sizes: 60 x 12 | 50 x 12 | 45 x 12 | 40 x 12 mm

*Vancore Custom Classic 4000 series...
the ultimate in sound and quality!*

Floating Bar Suspension

Most notable is the new Floating Bar Suspension System (FBS). This proprietary bar support system actually increases bar resonance by 20%! Precision laser cut bar support arms are angled to insure that each and every bar is supported exactly to the nodal point.

Casters

All stands are equipped with doublerolled casters for easy operation. Carefully choosed casters come with high grade bearings and brakes.

Lifting System | VCL

With just a ‘press on the pedal’, the height of the instrument can be easily adjusted. Comfort lifting resulting in a total free frame suspension, is realized by using durable gassprings to create an optimum of playing comfort.

*Height adjustable
through our patented
VCL System.*

Boxnumber	Content	Box Sizes		Weight	
		CM	INCH	KG	LBS
Box 1 of 2	Frame/Resonators	140 x 53 x 43	55,1 x 20,8 x 16,9	40	88
