# Xylophones

**CCX 4001**

3.5 octave F4 - C8 African Padauk

**Made in Holland | Used Worldwide**

## Custom Classic Series

With the greatest care, all our design skills and handtuned resonators, we select the best wood, to manufacture these series of percussion keyboard instruments. Featuring the finest in traditional craftsmanship, the very best and latest innovations in material and tuning technology, we present you these instruments. Rich and focused in tone, easy to transport and height adjustable through our patented VCL System. If the ultimate in sound and quality is what you search for, consider these Royal Series of mallet instruments.

## Custom Classic Series 4000 Series

Our 4000 series are designed for the 'gigging' xylophone players. The frames, resonators and stands are modular and very easy to break down, transport and set-up. The unique 'step on the pedal' VCL System provides a total height adjustment in just seconds.

### Bars

Material: Concert Quality African Padouk | Pterocarpus Soyauxii

As a perfect alternative for Honduran Rosewood Vancore is using African Padouk as basic material for bar manufacturing. This African hardwood stands for a warm character and rich sustain. Through sizes of logs and availability of quarter sawn wood, the bars made out of African Padouk are representing a perfectly balanced marimba keyboard in performance and tonality.

Bar sizes: 40 x 23 mm

### Floating Bar Suspension | FBS

Most notable is the new Floating Bar Suspension System (FBS). This proprietary bar support system actually increases bar resonance by 20%! Precision laser cut bar support arms are angled to insure that each and every bar is supported exactly to the nodal point.

### Endpieces

To realize stable and precise constructions, we use high grade steel and European Ashwood components. Rails and endpiece are very carefully designed to make that perfect match.

### Lifting System | VCL

With just a 'press on the pedal', the height of the instrument can be easily adjusted. Comfort lifting resulting in a total free frame suspension, is realized by using durable gassprings to create an optimum of playing comfort.

Height adjustable through our patented VCL System.

### Integrated Rail System

Our designers created a new and highly innovative concept to avoid the common and major problem with layers. On top of that, the bar suspension and layer are integrated. One solution, one unique concept!

### Resonator Clamp System

Vancore resonators are individually hand tuned and assembled using an exclusive mounting system. This system eliminates every kind of rattle or extraneous noise. Unlike other resonators, welded or riveted, our system employs minimal contact technology, which eliminates potential problems.

### Casters

All stands are equipped with doublerolled casters for easy operation. Carefully chosen casters come with high grade bearings and brakes.

Vancore Custom Classic 4000 series | The ultimate in sound and quality!

Boxnumber	Content	Box Sizes		Weight	
		CM	INCH	KG	LBS
Box 1 of 2	Frame/Resonators	85 x 60 x 41	56 x 33.0 x 17.7	39	85.9
Box 2 of 2	Stand/Bars	77 x 62 x 44	30.3 x 24.4 x 17.3	27	59.5
