3.5 octave F4 - C8 Vibercore Synthetic

**Made in Holland | Used Worldwide**

## Performing Standard Series

A complete series of mallet instruments designed for the budget minded students, orchestras and ensembles. These instruments feature the same selected bar materials and carefully handcrafted resonators, which are used for the Custom Classic Series. The frames of these instruments are manufactured using European Ashwood and high grade steel components.

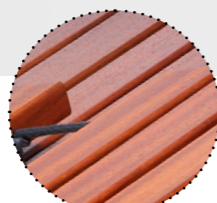

## Performing Standard 500 Series

The perfect solution for the starting mallet player. A top quality xylophone fitted with rich sounding selected air dried Padauk, Rosewood or solid Vibercore bars.

*A complete series of mallet instruments  
designed for the budget minded students!*

### Floating Bar Suspension | FBS

Most notable is the new Floating Bar Suspension System (FBS). This proprietary bar support system actually increases bar resonance by 20%! Precision laser cut bar support arms are angled to insure that each and every bar is supported exactly to the nodal point.

### Frame

To realize the most stable and precise construction, the frames are very carefully designed and are made out of first choice solid Ashwood, carefully shaped and CC machined. Combined with sturdy steel layers.
